Memo

The establishment of a dispensary at Sargur was sanctioned, provided that the Municipality of the town were willing to bear the cost of the building or to pay the rent of the house in which the dispensary might be located. The Dy Comr now states that no rent is paid to a private building, in which the dispensary is at present located, & that a building according to standard plan is necessary and requests that the Municipality may be excused from payment of any contribution towards the cost of the buildings. He adds that if the Govt are not prepared to exempt the Municipality from payment of contribution, the Board would pay 1/3 cost (1406) of the dispensary building by annual

No 1529 of 18 April 1897

You cannot lay down a hard & fast rule in such matters - Each case is necessarily to be considered on its merits. Should the Civil Surgeon certify that a certain house is necessary for the proper working of the dispensary, the rent of the house should be borne from the D.F. Should the new quarters be costly, the payment of rent should be limited to a certain sum, which is considered reasonable for the locality. Specially would this be the case in Upper Burma, where houses are costly & rents high.

SURGEON & SANITARY COMMISSIONER WITH THE GOVT OF MYSORE * OFFICE OF SENIOR
No. 1091
DATE 17-2-93
BANGALORE

The Chief Secretary to the
Government of Mysore
Bangalore.

Sir,

With reference to Proceedings of Government and order thereon No 7515-16 L.# 268-92 dated Bangalore 1st December 1892 I have the honor to forward for order of Government the marginally noted correspondence regarding the opening of a dispensary at Sarguer as recommended by the Deputy Commissioner of Mysore and to state that there seems a good case made out in favour of opening one there both because of the feverishness of the locality and the fact of the people finding it difficult during parts of the Year when the river is in flood to cross and go to the Heggadevankote dispensary which is 8 or 9 miles off.

2. Some of the villages given in the Deputy Commissioner's Statement as

as situated within a radius of 6 or 8 miles from Sarjur must be at the other side of the river and near Heggadevankote but he states that there are 29 other villages, presumably not included in the Statement, within the same radius which contains an aggregate population of 5554 or a grand total of 22183.

3. I think under the circumstances I feel bound to advise that a dispensary may be opened there.

4. The only alternative would be to put the Hospital assistant at Heggadevankote in visiting charge of a dispensary at Sarjur but the saving in this way would not be large, but would of course vary with the rank of the Hospital assistant if one were employed at Sarjur and the arrangement would probably not be very satisfactory to either place.
